

The Campbell County Historical & Genealogical Society

Welcomes

Lawrence Goodridge

**Professor of Art Emeritus
Art Academy of Cincinnati**

For a Presentation on

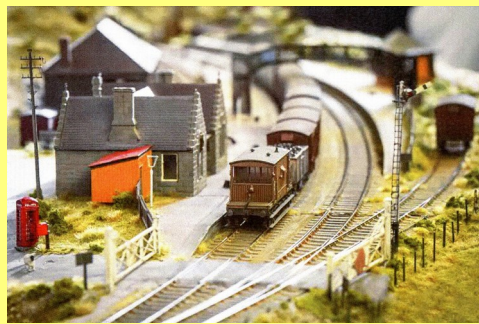

Model Railroading

A Hobby that is Fun For The Whole Family

There is just something captivating about a model train exhibit! Maybe it's the trains, the scenery and the layouts or maybe it's the smells and the sounds that seem to take us back to a simpler time.

Model railroading has long been a hobby in which the whole family can participate. The layouts range from the simple circular track around the Christmas tree to much larger and more elaborate layouts that can fill an entire room.

Whether you are a novice, an expert or just curious about getting started, everyone will take something away from this presentation by Mr. Lawrence Goodridge. We will discuss scales and planning, layouts and construction, and get some tips on how to create some beautiful scenery including mountains, tunnels, lakes and streams.

Lawrence Goodridge is a professional artist who lives and works in Northern Kentucky. In addition to his painting and illustration works, he creates custom model train layouts, dioramas, and displays. His favorite themes include Postwar America, the Old West, Ringling Brothers Circus and World War II. A recent layout features Patton's Third Army on the move in France in 1944, a tribute to history and to our veterans. His seasonal displays, clinics, and demonstrations share information about America's railroads and their role in the building of our nation.
